KEEP THE HAIR UNBLEMISHED .- "I am like an old hemlock-withered at the top," said a venerable Indian Chief, pointing to his thin and bleaching locks. Thousands of men and women in civilized society, much younger than the old Sangamore, are like him, "withered at the top," simply because they have neglected to use the means of preserving and beautifying the hair which science has placed at their disposal. If LYON'S KATHAIRON be faithfully applied once or twice a day, to the fibers and the scalp, it is just as impossible that the bair should decay, wither, fall out or become harsh and fuzzy, as that a \$767.28, for filling and grading the crossmeadow, duly refreshed with nightly dews | ing on Sycamore street across the I. C. R. and sunlit rains, should become arid and barren of green blades. This matchless preparation not only keeps the hair alive and the skin of the head in a healthy and clean condition, but actually multiplies the filaments and imparts to them a lustre flexibility and wavy beauty unattainable by any other mode of treatment. It does not, like the metallic and sulphurious hair dyes, dry up the natural moisture of the Robinson, Safford, Sease and Stancil-9. scalp, but supplies nutriment to the roots | Nay-0. of the hair and vigor to the fibers.
